Safe, Secure and Inexpensive Way to protect information

No Waste Material

No Data

No Harmful Gas

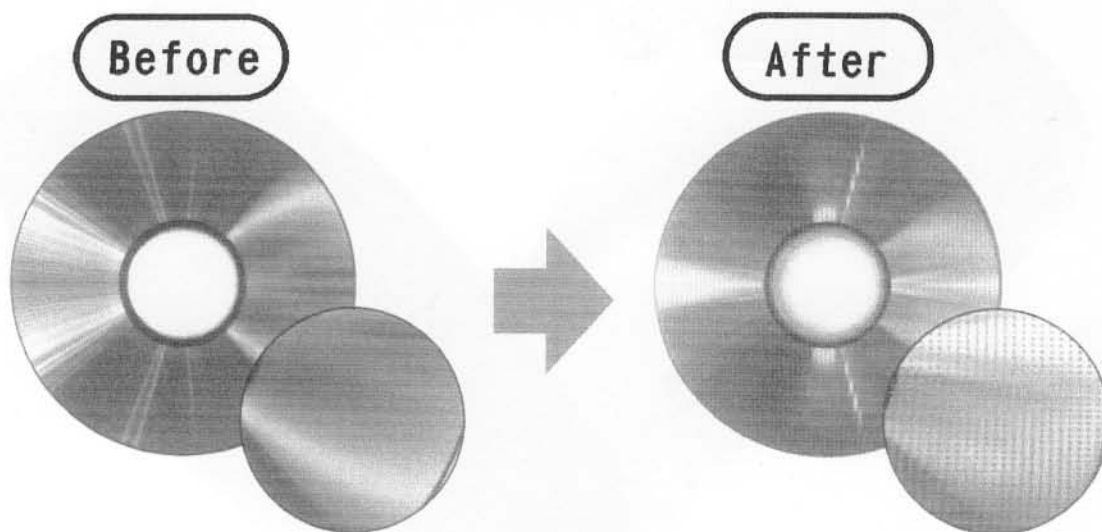

CD Terminator

Protects against identity theft by completely destroying personal data burned onto CDs

Don't throw a CD containing client data, personal documents or protected software into the trash without first destroying the data-bearing surface!!!

Specifications:

Name	CD Terminator
Size	184mm X 195mm X 85mm
Weight	1.75kg
Power	12w
Voltage	AC220v 50Hz/DC12v

Easy to use

Easily destroy the data-bearing surface of any kind of CD in seconds. Works on all types of CDs including: CD-Rs, CD-RWs and DVDs. Can destroy 1 CD in 5 seconds.

Safe & Clean

Just slide your CD into the machine and the two solid steel knurled rollers will destroy and emboss the CD surface. No extra waste material will be produced.

Small Size

Design for business and home to destroy data on CDs and DVDs. Small, compact, light weight and easy to store and use.
