## **GUARDER III** **TouchProbe Touring System**

*Guarder III Reader is a special hand-held iButton data acquisition device with sophisticated built-in data processing capability designed for trouble-free patrol monitoring and reporting.*

## **GUARDER III** **TouchProbe Touring System**

- Stores ID, Time & Date information of each checkpoint patrolled

- 4000 non-volatile event memory

- Audible alerts for low free memories

- Programmable to set the alarm clock

- Built-in beeper for audible read confirmation

- Build-in LED for visibility of valid reads

- Audible alert to check battery status

- Highly rugged stainless steel construction

- Capable of generation of patrol reports with direct connection to small standalone printer without using computer

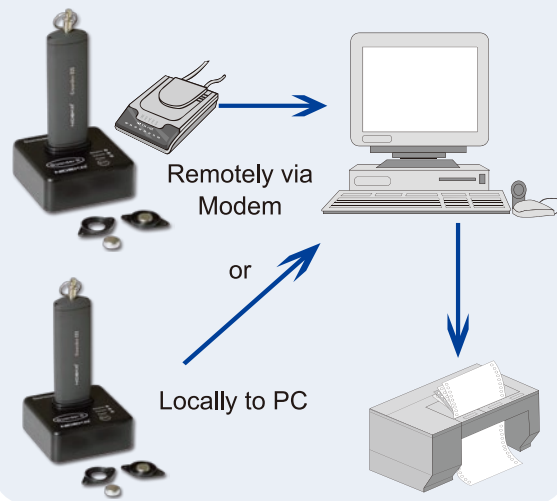

**NIDEKA®**

# Guarder III

## Data Acquisition Downloader

▶ Guarder III Downloader features RS-232 interface to PC

▶ Guarder III Downloader-P features direct patrol report printing for the following:

- Guard Personnel List
- Checkpoint List
- Event List
- Checkpoint patrolled

## Guarder III iTrack Professional Management System

### Built-in Security:

- User authentication
- User profile
- Audit trail

### Comprehensive Reports:

- Patrol route statistics
- Exception report
- Consolidated performance statistics

### Specifications

Spec.	Product	TouchProbe	Downloader	Memory button
Memory Capacity		4000	4000	48 bit read only digital memory
Data Transmission		90 data/min	RS 232	One touch
Housing		Super alloy	ABS	Stainless steel (waterproof)
Signals		Super LED/ Alarm	LED	Nil
Power Supply		3.6V battery	9V DC 1.0A	Nil
Operating Temperature		-20°C~ 54°C	-20°C~ 54°C	-40°C ~ 85°C
Operating Humidity		5% ~ 95%	5% ~ 95%	5% ~ 95%
Weight (g)		200	210	2
Dimension (mm)		20 Th x 42W x 148L	38H x 98W x 98 L	16.5∅ x 3Th or 5 Th
